#### #forestinnovation2025

### **OG eGOZD**

- The operational group addresses four key challenges of private forest land owners:
  - (1) a large amount of administrative obstacles;
  - (2) lack of specific forest estate plans for land owners;
  - (3) lack of integration in the field of marketing of wood products;
  - (4) lack of systematic data collection of the entire agricultural-forestry ecosystem.
- Among the key processes for digitising the forest-wood value chain identified were those related to communication between different stakeholders and information flow between those harvesting timber from a forest estate.
- DSS development

### Partnership

- Slovenia Forest Service
- Race Kogo Development center of the Carinthian economy d.o.o.
- Associations of forest owners Slovenia
- Arctur d.o.o.
- 8 Slovenian farms (1 forest common)
- **OG field**: Developing and extending digitalisation in the agricultural holding and production organisation

**DREST4EU** 

### **OG coordinator**

**Slovenian Forestry Institute** 

#### • **Co-financed**: **EIP** AGRI / PRP M16: Sodelovanje

 Project duration: 1.8.2020 - 31.7.2023 Project budget: 347.222,86 €

### **INNOVATIONS**

WoodChainManager: cost calculations

(https://doi.org/10.5552/crojfe.2020.583)

- Online tool for quality classification of round wood
- System for quality assessment of forestry contractors

(https://doi.org/10.5552/crojfe.2021.834)

Forest estate management plan guidelines (SimWood)

Open access
